DESCRIPTION

The Aluminum Mast Arm is ideal for front row car dealerships, tennis courts, and any other applications that require high forward lumen output.

FEATURES

2.375" O.D. schedule 40 (T20) 6063 T6 aluminum alloy tube with aluminum cleat.

Designed for mounting to new or existing wood pole.

Mounting hardware by others.

TGIC thermoset polyester powder coat finish is electrostatically applied at a 3.0 mil nominal thickness. A five stage metal pre-treatment process and sealer provide maximum corrosion resistance. The powder top coat is baked in excess of 400 degrees for supreme endurance.
