DRILLING DETAIL

DESCRIPTION

The Steel Mast Arm is ideal for front row car dealerships,tennis courts, and any other applications that require high forward lumen output.

FEATURES

2.375" O.D. structural ASTM A-123 A500 grade B steel tube with steel cleat.

Designed for mounting to new or existing wood pole.

Mounting hardware by others.

TGIC thermoset polyester powder coat finish is electrostatically applied at a 3.0 mil nominal thickness. A five stage metal pre-treatment process and sealer provide maximum corrosion resistance. The powder top coat is baked in excess of 400 degrees for supreme endurance.
